**TEACHING
AWARDS**
EXCELLENCE IN SCHOOL TEACHING.

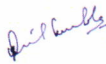

Dear Teacher,

As an academician, you've contributed tremendously to the development of our nation and helped in creating a well-informed India. I am truly delighted that there's an award that finally recognises and pays tribute to all your years of dedication and hard work.

As a cricketer, I have seen expectations from a nation full of people, but it is nowhere close to what you would encounter along the path you've chosen. As a parent, I know I am forever indebted to you for the value and quality of education you bring to our children. I believe there are millions of other Indian parents who feel the same. Thank you for nurturing our children and playing such an important role in helping them grow into intelligent, forward thinking adults who will shape the future for the better. Your role in society is truly priceless.

I can say with certainty that you're not just a source of inspiration to our children, but to hundreds and thousands of teachers across the country. Thanks to you more teachers will be motivated to connect with their students in inspiring and innovative ways and raise their level of teaching to greater standards of excellence.

Please know, in my heart you're already a winner. I continue to wish you many more years of exceptional teaching and all the recognition you deserve.

Warm regards,
Anil Kumble
