

Procedures to be adopted on New machine for importing data (exported from master machine through DISEXprt.db file")

Part -1 (Tablespace, User creation)

1) Replace following files of following folders with new updates (download from www.ssapunjab.org under DISE & MIS Link.

- DISEXprt C:\Dise2001\DISEXprt
- Orgniser C:\Dise2001\DiseAsst\Orgniser
- SchData C:\Dise2001\DiseAsst\SchData

Kindly update all three folders on all the machine where data entry is going on.

2) Now go to

Start -> Programs -> D I S E 2 0 0 1 (Rel. 1.2+) -> DISE Db. Organization

3) Enter "system" as username and "manager" as password (Click OK).

4) Enter "dise2001" as password and re-type password.

5) Now "Create Table Space" and "User"

6) Exit from this module.

Part – 2 (Table creation)

1) Again login in "DISE Db.Organization" module.

2) But this time login with user name and password you created at point no.5 above.

3) Enter "dise2001" as password and re-type password.

4) Go to Table menu and click on "Create Tables".

5) After succussfull creation of tables exit from this module.

Part -3 (Table Updation)

1) Go to "DISE School Database" modul .

2) Login with your own user name & password.

3) Click on "Continue"

4) Go to "Master" Menu.

5) Click on "Prepare / Populate Database".

6) Click on "DISE 2009 Elementary".

7) Check box "Create DISE 2009 Tables" should be checked.

8) Click on "Upgrade".

9) Now click on "DISE 2009 Sec/H Sec"

10) Check box "Create Sec/Hr. Sec Tables" should be checked.

11) Click on "Upgrade".

Part -3 (Supplementary Variables and Regional Settings)

- 1) Go to "Data" menu and click on "Supplementary variables" and follow the process as shown in the following screens.

The screenshot shows the 'Relabel supplementary variable' dialog box. The title bar reads 'Relabel supplementary variable'. Below the title bar, it says 'Supplementary variables for DISE2001'. On the right, there are options for 'Selected Regional Language & Font' and 'Font Size'. A dropdown menu is set to '2 - Building, Equipment' and a 'No. of variables to be used' field is set to '1'. An 'Exit' button is visible. Below this is a table with columns: Name, Type, Length, Defination, and Regional Language Description.

Name	Type	Length	Defination	Regional Language Description
Var. P1	C	30	20. Boundary Wall (Length):	
Var. P2	C	30	Eqp. Info.	
Var. P3	C	30	Eqp. Info.	
Var. P4	C	30	Eqp. Info.	
Var. P5	C	30	Eqp. Info.	
Var. P6	C	30	Eqp. Info.	
Var. P7	C	30	Eqp. Info.	
Var. P8	C	30	Eqp. Info.	
Var. P9	C	30	Eqp. Info.	
Var. 99	C	30	Eqp. Info.	

The screenshot shows the 'Relabel supplementary variable' dialog box. The title bar reads 'Relabel supplementary variable'. Below the title bar, it says 'Supplementary variables for DISE2001'. On the right, there are options for 'Selected Regional Language & Font' and 'Font Size'. A dropdown menu is set to '3 - Teachers' and a 'No. of variables to be used' field is set to '5'. An 'Exit' button is visible. Below this is a table with columns: Name, Type, Length, Defination, and Regional Language Description.

Name	Type	Length	Defination	Regional Language Description
Var. V1	C	30	Nil	
Var. V2	C	30	Nil	
Var. V3	C	30	Nil	
Var. V4	C	30	Telephone No	
Var. V5	C	30	Distance	
Var. V6	C	30	Tch Info.	
Var. V7	C	30	Tch Info.	
Var. V8	C	30	Tch Info.	
Var. V9	C	30	Tch Info.	
Var. 99	D	8	Tch Info.	

2) Now go to "Tool" menu "Regional Settings" and following the following screen.

Regional Settings

Regional Settings

Select the State dependent Data which you want to maintain in DISE2001 Database

Synchronize School Name with School Initialization Table 0 = True / On 1 = False / Off Data Entry Upto: 3 - Hr. Secondary

HKEY_CURRENT_USER\Software\Dise2001\DiseAsst\UpdateSchName = 0

State Defined Data Capture Formats:

Enrolment by Age by Caste (SC, ST, OBC, Minority, All Categories)
HKEY_CURRENT_USER\Software\Dise2001\DiseAsst\EnrByAgeCaste = 1

Update Enrolment by Age from Enrolmen by Age by Caste
HKEY_CURRENT_USER\Software\Dise2001\DiseAsst\UpdateEnrolAge = 1

Enrolment by Medium of Instruction by Caste
HKEY_CURRENT_USER\Software\Dise2001\DiseAsst\EnrByMediumCaste = 1

Teachers by Medium of Instruction by Caste
HKEY_CURRENT_USER\Software\Dise2001\DiseAsst\TchByMediumCaste = 1

Teachers by Teachers Category by Caste
HKEY_CURRENT_USER\Software\Dise2001\DiseAsst\TchByTchCatByCaste = 1

Average Attendance
HKEY_CURRENT_USER\Software\Dise2001\DiseAsst\AvgAttendance = 1

Supplementary Variables on Seperate Page Advanced MDM

Data for Sec. / Hr. Sec. schools only

Classrooms by condition Teachers by Category Enrolment, Repeaters, Examination data by Stream

State Defined Colour in Data Entry RED GREEN BLUE 193 193 193 = Implement Validations in Enrolment Data Entry

Save & Close

Now you can import data from Xprt.db file (through "DISE Export Utility" Module of DISE Software) and can start work thereon.
