About dial.gov Service

dial.gov, a common man's interface was launched in December, 2012 to disseminate information about the various benefits provided by the Government through a unified platform for delivering information service catering to various sections of society. The aim of this single gateway, dial.gov, is to deliver information to citizens about various schemes and welfare services provided by the Central and State Governments and enabling the citizen to search for welfare benefits based on his/ her eligibility.

At present, the service is available for Scholarships Benefits, Pension Benefits, Farmer Benefits, Women & Child Benefits, Sports Benefits, Youth Benefits and Health Benefits. The service is being scaled up with information about other benefits such as Labour Benefits and Self-Employment Benefits.
