

## **Notice**

There has been a demand from newly recruited teachers in the Department from SSA and RMSA whose services have been regularized that there are middle schools which were set up and established under SSA , should now be notified as Department schools to enable them to join against posts available in these schools. Accordingly, the Department has examined the matter. As large number of SSA teachers were posted in the middle schools and with the decision of the government by which a large number of SSA teachers have given their option to join against the regular posts on regular basis and as a result there has occurred shortage of teachers in SSA schools, it has therefore been decided that such schools be identified and notified where newly recruited teachers could be posted in needy schools. This will not only help the Department to utilize the resources optimally but would also help the Department to make teachers available to students. The notification mentioning the list of the schools will be placed on the website tomorrow. All concerned may choose their stations out of these schools apart from the schools already put on the website.
