R. Ramanam

Respected Shri Hussan Lal

With a vision to 'Cultivate one Million children in India as Neoteric Innovators', Atal Innovation Mission is establishing Atal Tinkering Laboratories (ATLs) in schools across India. The objective of this scheme is to foster innovation in young minds; and inculcate skills such as design, computational thinking, etc.

This year is a momentous one for India's children. It marks the 150th birth anniversary of the Father of the Nation, Mahatma Gandhi. Thus, NITI Aayog's Atal Innovation Mission and UNICEF have joined hands to **launch an innovation challenge – The Gandhian Challenge**. Children from and around the nearly 8000 Atal Tinkering Lab schools will make Mahatma Gandhi's values - including truth, non-violence, service and leadership - come alive by designing and innovating for a New World built on these powerful guiding principles.

Our aim is to enable children to read, understand and envision a New World inspired by the beloved 'Bapu' and ideate solutions to address the challenges facing our planet. The winners of this challenge will be invited to Delhi and will interact with the heads of NITI Aayog, AIM and UNICEF and spend a day in their offices.

The call for applications will open on 2nd October '19 for three weeks and is open to all students from Grade 6 onwards. The application can be submitted only by schools affiliated to ATL however students of other schools can reach out to ATLs in their vicinity to apply. The two themes for the challenge are:

1. **Art & Innovation** - For Example : Letters, poems, painting, videos, photos
2. **Science, Technology & Innovation** - For Example : Robotics, IoT, sensors, 3D printers

The contest will be hosted on and supported by the Government's citizen engagement portal, My Gov.

You are requested to kindly spread the word of this challenge to Academic Institutions and Boards dealing with school education (Grade 6 to 12) and other relevant stakeholders associated with you, to get support in maximising our reach to the students of your state. With your help we hope to encourage students to participate with enthusiasm thereby spreading Mahatma Gandhi's principles far and wide.

We are extremely grateful for your support in taking this initiative forward.

Yours Sincerely,

R. Ramanam
